

trude on the controlling issues would make him acceptable to the Constitutionalists, while his character, standing and conduct would make him acceptable to the other party.

Such a man, and only such a man, can reasonably be expected to have the confidence and respect of the entire country.

In answer to the contention that there could be no fair elections conducted by a neutral government, which a Constitutionalists would be, the answer is that the American plan is to have the election supervised by a single Cabinet minister, representing the dominant party. By analogy the next election should be supervised by only one official representing the dominant Constitutionalists party.

The American plan seeks to avoid the criticism against that method, and to accomplish this, the most important election in the history of Mexico shall be supervised by representatives of both parties.

It is wholly incorrect to assume that this supervision will be unfair. It is conducted, and you may rest assured that all the influence the United States can legitimately use will be exerted to secure an honest election.

It is true that the American plan proposes that a majority of this board will be Constitutionalists, but that is because they now represent the sentiment of the majority of people of Mexico, and on which we must insist, has

been formulated solely with that end in view. Actuated by these motives, we feel that we may appeal to you and through you to the other Mexican representatives to read again our plan in the light of these words.

**ATMOSPHERE PESSIMISTIC AT NIAGARA FALLS.** In view of opposite views expressed by the American and Mexican delegations in their public utterances, the next conference, it was admitted, would perhaps be the most critical and delicate moment of the negotiation proceedings. The mediators intend to submit five or six names which they have selected out of a big list. Among these may be found one who is suitable, but the atmosphere was so pessimistic that it would cause general surprise if this occurred.

The break between Carranza and Villa has given some observers feeling that the American delegates might, as heretofore, not insist on a high up in the Constitutional ranks, but would urge a man in sympathy with the principles of the revolutionary progressive opposed to a reactionary.

While the American delegates have not entirely lost hope of the possibility of a change in sentiment at tomorrow's meeting, the general feeling was that mediation could not last much longer because of the irreconcilable position now taken by the American and Huerta delegates in public statements.

**CLUTCH UPON NATIONAL WEALTH OF NICARAGUA** (Continued from First Page.) The Secretary of State gets the treaty ratified.

Even should this be done, it was pointed out in the committee that the New York group of financiers would still control the railroad and the national bank through their majority holdings, and only whatever might be left of the remaining \$2,000,000 would go to the Nicaraguan government, where the use to which it might be put is considered by many members of the committee to be questionable.

**OFFICERED BY AMERICANS AT HIGH SALARIES.** In the hearing to-day Senator Smith asked a number of questions and disclosed the fact that the Nicaraguan institutions which produce revenue are largely officered by Americans at high salaries.

Senator Smith said he would assert without hesitation that the salary roll of American employees of the Nicaraguan republic would exceed \$100,000 a year. "All paid under unjust pressure of our government by the organized government of Nicaragua. Ministers and consular officials of Central American States," continued Mr. Smith, "no longer take up their affairs with the United States government. It is conducted by lawyers, some of whom have become expert in that field. This phase of latter-day dollar diplomacy reflects no credit on us as a nation."

When members of the committee suggested that Nicaragua had been "milked" by American bankers, Secretary Bryan replied that he had attempted to ameliorate conditions, but had been baffled by what he said was a "heritage from the last administration."

It developed in the hearing that the indebtedness of Nicaragua to-day is about \$10,000,000, including the repudiated \$5,250,000 Ethelberg syndicate loan now held by New York bankers. Less than two years ago, it was stated, the government actually owed less than \$500,000, exclusive of the Ethelberg loan.

**COLOMBIAN TREATY NOT BROUGHT UP** before the committee to-day. Opposition to it has developed so rapidly, however, that an amazing suggestion is made by prominent Democratic leaders to stem the tide of opposition. It is seriously proposed to withdraw it, and have an investigation made by a congressional committee into the circumstances surrounding the acquisition of the Panama Canal Zone and the setting up of the republic of Panama.

If this is done, the plan contemplates summoning former President Roosevelt, William Nelson Cromwell, the New York lawyer, and others who had a prominent part in the initiation of the canal project.

The purpose of this would be to popularize the Colombia treaty by attempting to show the rights of Colombia were rightly taken from her, and the property passed into the possession of the United States in a high-handed and questionable manner.

## MEXICAN SITUATION EXTREMELY DELICATE

Administration Officials, However, Do Not Abandon Hope for Success of Mediation.

**HUERTA'S ENVOYS MAY YIELD.** Credence Given to Reports That Villa Proposes to Carranza That There Be Division of Civil and Military Operations.

Washington, June 18.—Administration officials to-night characterized the Mexican situation as extremely delicate.

This comment referred particularly to the mediation conference which will be held at Niagara Falls. It also applied to conditions in Northern Mexico, growing out of the action of General Villa in demanding complete military control in the campaign against General Huerta.

Hope for the success of mediation, however, was not abandoned, according to persons in close touch with the administration. This hope was said to be largely based on developments in the Constitutional ranks, the view being held here that personal squabbles among Carranza's followers had been hipped, enhancing the chances of an agreement being reached on a Provisional President of Mexico and of checking internal Mexican hostilities.

Huerta's Niagara Falls delegates having failed to induce the United States to accept their so-called compromise candidate for the provisional presidency, it was reported here, might yield to some one suggested by the United States, even if he bore the stamp of the Constitutionalists, in order to hold up the military campaign against Mexico City.

**CREDENCE TO REPORTS FROM MEXICAN BORDER.** Credence was given here to reports from the Mexican border that Villa had proposed to Carranza that there be a division of civil and military operations, Villa to command the military and Carranza to remain in charge of governmental forces. Messages are known to have come from Villa to friends in the United States in which he explained that his action in imprisoning some of Carranza's subordinates was not a direct slap at the first chief, but merely to check more serious ruptures. Several messages were received at the State Department indicating that differences between Carranza and Villa were being smoothed.

The chief subject discussed to-day in official quarters, and also among Carranza's agents in Washington, was the action of General Villa in Chihuahua. Information reaching officials here with respect to the arrest of Constitutionalists there by Villa's order, was that Villa acted within his authority. It was asserted that Villa acted in his capacity as Governor of Chihuahua.

**HUERTA GOVERNMENT DESIRES TO AVOID ISSUE.** Evidence of the desire of the Huerta government to avoid any conditional issue with the United States government has been afforded by the release of P. J. Smith, an American, who had been under arrest on the Mexican west coast on a charge of being implicated in the killing of three Mexicans who attacked his home.

It has been reported that General Carranza has revived the commission appointed several months ago to ascertain facts connected with the death of the British subject, Benton, and the American citizen Bauch.

Mr. Hirsch said he had been informed that, as Minister Naon, of Argentina, might not get back from Harvard until late to-morrow, the full conference probably would not take place until to-morrow night or possibly Saturday.

Its contents, as it was a paraphrase of the memorandum given by the American delegates, and added that he would not decide until to-morrow whether or not there would be a reply.

## UNPRECEDENTED NUMBER OF SHIPPING ACCIDENTS

Caused by Two Days of Heavy Fog Over Parts of British Coast.

**STEAMER BUELOW IS ON ROCKS.** Report That Mammoth Liner Imperator Goes Ashore Disproved by Her Arrival at Southampton. American Yacht Calls for Aid.

London, June 18.—Two days of fog over parts of the British coast has caused an unprecedented number of shipping accidents. The North German Lloyd Company has been the principal sufferer.

While the company's staffs at London and Southampton to-day were docking the Kaiser Wilhelm II, badly ripped in a collision with the liner yesterday, and debarking her passengers, the company's steamer Buelow, from Yokohama, with more than 300 passengers, had stuck her nose into the rocks of Blacknor Bay, and was held fast.

The accident was without loss of life, as the sea was perfectly smooth. The Buelow resisted an attempt to pull her off, and passengers were transferred to tugs. Later the passengers were sent to Weymouth, and from there to London.

**ROOSEVELT'S FRIENDS STARTLED BY REPORT.** Colonel Theodore Roosevelt's London friends were startled by a message to-day that the Hamburg-American's mammoth steamer Imperator, on which the Colonel was to embark, had gone ashore off Bournemouth, Isle of Wight. The Imperator soon disproved this report by steaming into Southampton. Her departure from that port from the Imperial hours by the embarking of most of the Kaiser Wilhelm II's passengers.

The American yacht Utowana, owned by Addison V. Armour, of the New York Yacht Club, bound for Southampton, went ashore between Worbarrow and St. Albans heads. A wireless call summoned tugs to her assistance, and it is expected that she will be refloated to-morrow.

Divers' examinations of the Kaiser Wilhelm II, and passengers' stories show that good construction, as well as good management and fair weather, saved her from a tragic fate. She lies at dock with two rents in her side, twenty-four and eighteen feet long, below the water line, with two compartments flooded.

The Imperator, which cut into the Kaiser Wilhelm on Wednesday, also has been docked with bows badly damaged. The collision almost duplicated that between the Empress of Ireland and the Storstad.

**VILLA IS TO PROCEED SOUTH TO MEXICO CITY** (Continued from First Page.) Villa's movement, had been a staunch ally of Carranza.

It also was learned to-day that General Chao, who some time ago had been reported ousted by Villa as Governor of Chihuahua, has joined Villa with a number of troops from Tarral, although having been ordered by Carranza to proceed to Saltillo.

The authoritative narrative of what occurred between Carranza and Villa is as follows: Carranza ordered Villa

to send 5,000 men to the assistance of Nater, under command of one of Villa's generals. General Villa replied that he was going to Zacatecas himself with his entire army. Carranza asked Villa to obey his orders, which would have placed Villa's troops under command of Nater, in whose zone Zacatecas is located.

"After this exchange of telegrams, Villa offered his resignation. Carranza asked that his successor be appointed immediately. Then followed a conference of fourteen generals under Villa, who declined to accept a new leader. Villa then told Carranza that he was going to move south, as he had announced previously. The exchange ended."

"Villa took over the Carranza offices and put his own men in. Among the Carranza officials located at Carranza's treasurer-general, who had been issuing a new series of Constitutional money. The money was confiscated by Villa's troops. It amounted to more than \$1,000,000."

**ASQUITH WILL RECEIVE DEPUTATION OF WOMEN** (Continued from First Page.)

Mr. Lansbury, appeared with the news of Premier Asquith's decision. The chief Liberal whip afterwards issued a statement to the newspapers, saying Mr. Asquith gave his consent to an audience several hours before Miss Pankhurst visited the palace yard. The statement added that she had not been fed forcibly during her last incarceration, because she was too weak.

The police raided the houses of three militants to-day in search of incriminating papers. Miss Barbara Wylie announced this fact at a meeting of the Women's Social and Political Union to-night.

**FIRST USE OF RESINOL STOPS TERRIBLE ITCH** When Other Treatments Gave No Relief. Suffered Eight Years, But Resinol Cured in a Week.

Jan. 27, 1914: "I suffered over eight years with eczema. It started in one little place and kept spreading until it covered my hands. My hands looked like they had been burned by fire and peeled off in large pieces until they were only raw flesh. I was told it was eczema. It itched and burned me so that I could not sleep at night. I tried all sorts of eczema salves and one prescription after another, but nothing gave me any relief until I tried Resinol Soap and Resinol Ointment, and after the first application my hands never itched or burned again, and were well in one week. I want every sufferer from eczema to know that they can find a cure in Resinol." (Signed) Miss Ethel Scott, Millstead, Ga.
